### MATERIALS—OUR SECOND LARGEST EXPENSE

NEXT TO THE MONEY paid employees, the cost of materials is the most important factor of expense in operating any telephone system. This holds good everywhere, and it is quite true of our company.

PUBLIC REGULATION FIXES the price we may charge for our service, but it does not keep the price of materials down. We must pay current market prices for the materials we require to maintain our plant and equipment. Since 1914 the average price of all

#### Material Required to Furnish Telephone Service Has Increased Over 75 Per Cent.

BUT IN SPITE OF the burdens of rising wages and increased cost of materials, we have kept on trying to maintain our equipment at Bell System standards and to furnish a satisfactory grade of service.

WE CANNOT REASONABLY be expected to continue supplying service at a loss, and we do not believe the public wants us to. It is obviously unfair to our employees, our investors-and our patrons.

SO THAT WE MAY fulfill this triple obligation-to Employees, Investors and Patrons-we are now asking for sufficient revenue to pay a fair wage, to earn a reasonable return on the investment and to render good service.
